#### One possible version:

Dear Simon,

Safety is very important. Our government especially pays attention to teenage safety. A website called *nantong.safetree.com* helps us gain a lot of knowledge of safety. On the website, I have learned a lot.

Food safety is the most common problem with us students. We should stay away from fast food. Perhaps fast food is delicious, but it's bad for our health. Some dishes and food may be expired and you shouldn't eat them the next day, especially the dishes and food that were put into the fridge the night before. I once ate the dishes in the fridge. The next day, when I got to school, I had a stomachache. At least you should heat it enough before you eat them. Next, the traffic safety is also a big problem. It's necessary for us to obey the traffic rules, especially when we're on the way to school or back home. Pay more attention to the traffic lights. Don't cross the road when the light is red. We should always go on the right side. Don't ride bikes side by side.

All in all, we must realize the danger around us and treasure our lives. Safety is always the first priority.

Yours,

#### Possible version one:

##### My favourite English saying

My favourite English saying is many hands make light work. It means if lots of people share the work, it will make a job easier to complete.

Last term, our class decided to give a charity show to help children in poor areas. It was difficult to get everything ready in a short time. Luckily, all my classmates worked together and shared the work. Some students handed out leaflets, others prepared the costumes, and others helped download the music. I'm good at singing, so I sang a song while my best friend played the guitar. The charity show turned out to be a great success. We all realized that the success belonged to everyone of us. Teamwork really works.

#### Possible version two:

##### My favourite English saying

My favourite English saying is practice makes perfect. It means if you keep practising, you will be better at it.

When I was very young, I wasn't interested in drawing. Paintings and drawings looked all the same to me. My mum was patient and she asked me to draw whatever I liked. At first it was difficult. When I finished drawing a tiger, it looked like a cat! I didn't give up though. I practised every day. Once I kept drawing an egg for a week! Day by day I made steady progress. Then one day my art teacher praised me. How proud I was! I practised even harder than before. I want to be a famous artist like Qi Baishi in the future.

When my friends say that I am a born artist, I will smile and say, "It is practice that really works!"
