六、 **Saving the environment**

Great changes have taken place in many places during the past few years. The changes have brought many benefits, and have also caused a lot of serious problems.

There is air pollution everywhere. Factories let out their waste gas without doing anything to it. The air is not clean any more. Some people pour the waste water into the rivers and lakes directly and the water is dirty now. Besides, people cut down too many trees and leave rubbish here and there.

What shall we do to save the environment? My suggestion is that we must stop people from dumping the waste into the air and the water. And also we should plant more trees. Everyone should do something to protect the environment.

七、Dear Daniel,

We will have our school trip to the World Park on Saturday, 8 November. I'd like to invite you to join our trip. We will meet at the school gate at 7:00. It will take us two hours to get there by bus. There are models of more than a hundred places of interest from all over the world. There will be wonderful song and dance shows in the park. We will learn a lot about different cultures.

At noon, we will take a boat trip and have lunch in the boat. In the afternoon, we will take some photos in the park so that we can put them on our home page. At about 5:00 p. m., we will go back to our school by metro.

I'm sure it will be a great day. I hope you can join us.
Best wishes.

Yours,
Millie

八、 Growing up with good books

My dear friends,

Reading is very important. We can get knowledge through reading. It can not only open our minds, but also make us cleverer and happier. Our study can be improved if we read more good books. The more we read, the more we will learn.

However, some students spend much time in listening to music, watching TV or going online to play games. It takes much of their spare time. So I would like to suggest that everyone should read more books, especially classical good books. And we can spread/introduce our Chinese traditional culture to the world.

Let's start reading now. And let it become a part of our life!

七、 Our school is creating the Scholarly Campus. All of us take part in the activity.

Different students have different reading habits. For example, some like novels and some like books about

science. I like books about travel best. While reading, we must take notes and write down our feelings. There is a reading club in each grade. We go there to talk about what we read every Friday afternoon. Twice a term our school holds a reading contest.

Reading helps improve our knowledge and open up a new world to us. At the same time it helps us relax after busy study.

Reading is a good hobby

With the development of science and technology, new things come every day. If you stop learning even for a day, you will be lost. Reading is a good way to help you keep in touch with the outside world. Read widely and you'll be rich in knowledge. Reading is also a good way to relax yourself. You can get a lot of fun from books. A good book is a good friend to comfort you when you are unhappy. As long as you have a good book at hand, you'll never feel lonely. Every valuable book will open a new world for you.

Reading

Reading cannot only open up our minds but also improve our knowledge. Some people say that money is the best thing in the world, but I consider reading is the best.

Reading is very important. By reading you can get all kinds of knowledge. Furthermore, reading books makes your life enjoyable.

Many books are my favourite, such as *Five Thousand Years*, *Little Red Riding Hood* and so on. Every day I feel like I swim in the sea of books. I like reading them in my study after school. I usually buy them on the Internet because it's easy for me to do that.

Reading is a kind of enjoyment and a way to experience pleasure. Come on! Let's study together to experience the fun of reading together!

七、 Mary comes from a poor family in India. Her parents both lose jobs. She worked on the farm all day. She can't read or write. She wants to go back to school. A UNICEF worker heard of it. He came to her family and gave her school books. This gave her great hope.

Now she works hard at school. She does well in all subjects. She hopes to become a teacher and help more children in the future.

UNICEF is a famous organization. It raises money by selling cards and other fund-raising activities. It works in more than 190 countries and areas. It is helping the government and family build a better world.

七、 **One possible version**

Dear Editor,

I write to you just because I'm worried about the big problem that we're facing. Though people used to live a poor life, there was no pollution on the earth. Now our lives have greatly improved, but the environment is changing for the worse. In many places, rubbish is thrown into lakes and rivers. In some cities, air pollution is harmful to people's health. If this continues, the earth will soon become a terrible place for people to live. I think we should stop pollution, plant more trees and use new types of energy. It's important for us to develop a green lifestyle.

I hope that we can work together to make our earth a better place to live.

Yours faithfully,
Daniel

How to be a greener person

It's our duty to protect the environment around us. First, we can go to school by bike or by bus. Second, we should save water. We can save energy by turning off the lights when we leave a room. We may use both sides of the paper. Third, we can recycle many things, such as glass, plastic and waste paper.

We can take our own cloth bags to the supermarket, and we mustn't drop litter in public places.

Let's work together to make the earth more and more beautiful.
